PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on experience in Full-Stack Web Development, building responsive and user-friendly web applications. Proficient in React.js, JavaScript, Node.js, Express.js, SQL, Tailwind CSS, and RESTful API development, with experience in database integration and version control using Git/GitHub. Skilled in developing reusable UI components, implementing frontend designs, integrating backend services, and building practical full-stack projects, including task management and AI-powered web applications. Strong problem-solving and debugging skills, with a passion for writing clean, maintainable code and developing scalable software solutions.

TECHNICAL SKILLS

Frontend Development

HTML5 • CSS3 • JavaScript • React.js • React Router • Vite • Tailwind CSS • Framer Motion • Responsive Web Design

Backend Development

Node.js • Express.js • RESTful APIs • JWT Authentication • Role-Based Access Control (RBAC) • File Uploads (Multer, Cloudinary) • Email/OTP Verification (Nodemailer)

Databases

PostgreSQL (Supabase) • MongoDB (Mongoose) • MySQL

Tools & Platforms

Git • GitHub • Postman • Vercel • Supabase • Cloudinary • VS Code

Practices

Debugging • API Integration • Manual QA Testing • Software Requirements Specification (SRS)

WORK EXPERIENCE

Full Stack Developer Intern *09/2026 – Present*

Khawaja Labs

- Build responsive React.js and Tailwind CSS interfaces for Suprema, a full-stack task-management SaaS platform, including the Kanban task board, role-based dashboards, calendar and analytics views.
- Develop reusable UI components and responsive layouts from design references, keeping behavior consistent across desktop, tablet and mobile.
- Connect the React.js front end to a Node.js/Express REST API using JWT authentication and role-based route guards.
- Debug layout and usability issues in an existing codebase and test features before release.

Web Development Intern *07/2025 – 11/2025*

Maroof International Hospital, Islamabad

- Built and refined responsive web pages for the hospital website using HTML5, CSS3, JavaScript and Tailwind CSS.
- Created and modified reusable UI components to keep layout and styling consistent across desktop, tablet and mobile devices.
- Tested pages across screen sizes, identified layout inconsistencies and fixed styling and responsiveness issues in existing frontend code.

PROJECTS

Suprema — Task Management SaaS Platform

Full-Stack Web Application • React.js, Node.js, Express, PostgreSQL (Supabase)

- Built a full-stack task management SaaS with React.js, Tailwind CSS, Node.js/Express and PostgreSQL (Supabase).
- Implemented JWT authentication, OTP email verification and role-based access control for five user roles.
- Developed workspaces, projects, subtasks, a drag-and-drop Kanban board, comments, attachments and an admin panel.
- Secured the API with Helmet, rate limiting and input validation; deployed on Vercel.

FaceCraft — AI Grooming & Beauty Assistant

Full-Stack Team Project • React.js, Node.js, Express, MySQL

- Contributed to a team-built web app that detects skin issues, skin type and face shape from facial images and recommends products.
- Developed React.js and Tailwind CSS interfaces and Node.js/Express REST APIs, integrating the separately built ML analysis services.
- Designed MySQL storage for user accounts, analysis history, products and memberships.

Food Delivery Web App — MERN Stack

Full-Stack Web Application • React.js, Node.js, Express, MongoDB, Stripe

- Built a MERN food-ordering app with a customer storefront and a separate React.js admin panel.
- Implemented JWT authentication, menu browsing, cart, order history and Stripe checkout.
- Added admin features for managing food items (with image upload) and customer orders.

Car Rental Website

Frontend Web Application • HTML5, CSS3

- Built a five-page car rental website (Home, Cars, Booking, About, Contact) using HTML5 and CSS3.
- Designed a car listing page along with booking and contact forms for rental requests and customer inquiries.
- Styled the interface with custom CSS and Font Awesome icons, and deployed the site on Vercel.

ShopEase — E-Commerce Storefront

Frontend Web Application • HTML5, Tailwind CSS, JavaScript

- Developed a seven-page e-commerce storefront (Home, Products, Cart, Checkout, Order Confirmation, About, Contact) using HTML5 and Tailwind CSS.
- Built responsive layouts that adapt to mobile, tablet and desktop screens using Tailwind CSS breakpoints.
- Added JavaScript features including an add-to-cart counter with button feedback, a mobile navigation menu and toast notifications.

Personal Portfolio Website

Frontend Web Application • React.js, Vite

- Designed and built a personal portfolio website with React.js and Vite to showcase projects, skills and professional experience.
- Created responsive page layouts and reusable React.js components for a consistent look across devices.
- Deployed the site on Vercel and managed the source code with Git and GitHub.

EDUCATION

Bachelor of Science in Software Engineering *2022 – 2026*

International Islamic University, Islamabad

Intermediate in Computer Science *2020 – 2022*

IMCB F-10/4, Islamabad

Matriculation *2018 – 2020*

Islamabad Model School for Boys, G-11/2, Islamabad

CERTIFICATIONS & TRAINING

JavaScript Specialist

Certiport (a Pearson VUE business)

- Earned an international JavaScript certification covering variables, functions, DOM manipulation and modern web development practices.

MERN Stack Course (NAVTTC)

Adan Institute, Fazal Technology Park, I-9, Islamabad

- Trained in building full-stack applications with MongoDB, Express.js, React.js and Node.js, including responsive UIs, RESTful APIs and database management.
